

Mathematics

Students will develop the concepts and skills of:

Working with Numbers:

- Students will explore the concepts of simple addition and subtraction through the use of concrete materials.

Sharing it Around:

- Students will be beginning to recognise equal and unequal groups and share objects by distributing one object at a time.

Shaping Up:

- Students will continue to explore shapes in their environment. They will be introduced to the concept of area informally, by filling spaces with concrete materials.

Assessment Focus

SENA 1 assessment of each area in Mathematics and ongoing observations.

Rock and Water

All students in Junior Primary will participate in a Rock and Water program, designed to develop self-confidence, self-awareness and self-control.

Dance, Gross Motor and Athletics:

Students will engage in weekly gross motor lessons. Students will learn the importance of safety in sport, as well as developing fundamental movement skills, ball skills and running skills.

Italian

Weeks 1-2 What are the parts of your body?

Weeks 3-4 Clothing

Weeks 5-6 Introduce weather words

Week 7 Father's Day card

Weeks 8-9 Culture

Week 10 Revision

The Arts

Music

Kindergarten music is a time when we focus on the basics of music making: steady beat, pitch, rhythm and fun! We sing folk songs with our singing voices, play instruments to the steady beat, play games to help us keep music together and perform folk dances.

Whole School Performance

Preparation for whole school performance

Visual Arts

This term we will develop skills and techniques in making, presenting and reflecting on art, craft and design works using a variety of materials. Visual Arts projects are closely related to all subject areas.
