

# Prayer and Scripture

Year One/Two

Term 4 Overview 2018

## Term Events

Weeks 1-9 Mondays K-2 Swimming  
21st October Year 1 Family Mass 9:00am  
1st November All Saint's Day Mass 9:15am  
8th November Kenny Koala Visit  
12th November Year 1/2 Gold Remembrance Day Liturgy  
18th November Year 2 Family Mass 9:00am  
28th May Reconciliation Day (Public Holiday)  
Week 7 Sabbath  
6th December Learning Showcase  
7th December Giving Mass 10am  
5th and 12th December Advent Liturgies 10:30am  
14th December Reports go home, 5 Ways of Being Award Ceremony 2:15pm, and Christmas Picnic  
Week 10 Optional parent teacher interviews  
18th December End of Year Mass 10am  
19th December Fun Day  
21st December Christmas Carols Concert

## Music

Students are exploring a range of movement to music. They are listening to music from around the world and responding to these pieces by creating illustrations and written stories. Students are developing their aural skills to keep in tune and in time when they sing and play.

## Religion

God's Gifts and God's Creation

Year 1 students will explore creation as an expression of God's love and how this is continuously projected in new creation. Year 2 students will develop an understanding of how God is present in their lives and the lives of others, and what special responsibilities human beings are granted with as stewards of creation.

## English

Students will participate in modelled, shared and independent reading experiences. They will explore a range of texts, specifically focusing on texts to inform. Students will continue to use the five spelling strategies; sound, visual, meaning, connecting and checking in application to individual spelling words. This term students will build their understanding of topic vocabulary used to create informative texts. Students will develop their note taking and questioning skills. They will be encouraged to explore both fiction and non-fiction texts with the purpose of enhancing their reading strategies to effectively comprehend a range of texts. Students will continue to consolidate writing correctly formed letters and using the appropriate lines in their books. They will explore verbal and non-verbal strategies used to engage an audience when making presentations.

### Assessment Focus:

- Ongoing observations of listening and speaking behaviours
- Weekly reading and writing conferences
- Standardised reading testing
- The writing process leading to a published text

## Drama

Year 1 and 2 will explore the different elements of dramatic play including improvisation, voice, facial expression, movement and space to create a sense of atmosphere.

## Italian

Students will continue to explore simple Italian words and phrases used as greetings, asking and answering simple questions and singing songs. They will also continue to learn about Italian culture.

## Mathematics

We will be focusing on a variety of mathematical concepts to enhance the students' knowledge within the areas of:

### Year 1

*Number and Algebra:* students will consolidate their mental strategies to solve addition and subtraction problems. They will practice dividing collections into equal groups.

*Measurement and Geometry:* measuring the length, capacity and volume of different objects, and exploring the properties of 3D objects.

*Statistics and Probability:* creating surveys to gather data and representing data using tally marks and interpreting simple graphs.

### Year 2

*Number and Algebra:* students will consolidate their mental strategies to solve addition and subtraction problems. They will explore multiplication as repeated addition, groups and arrays. Students will also explore division as grouping into equal sets.

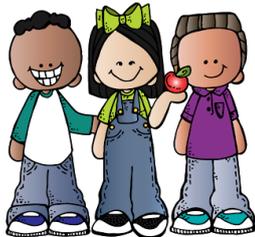

*Measurement and Geometry:* measuring the length, capacity, volume and mass of different objects, and exploring the properties of 3D objects.

*Statistics and Probability:* creating surveys to gather and classify data and representing data using a variety of graphs.

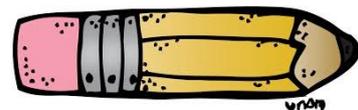

## Design and Technologies

Year 1 and 2 will be exploring the concept of sustainability in relation to the design and production of familiar products, services and environments. Students will generate, develop and record design ideas through describing, drawing and modelling.

## Health and Physical Education

In Health, Year 1 and 2 will investigate strategies to use when they feel uncomfortable and stressed by a problem or situation. They will explore their emotional responses that account for their own and others' feelings. In Physical Education, Year 1 and 2 will participate in a range of coordination movements (running, sprinting, marching, lunging, jumping and hopping), dynamic movement and core sequence exercises. They will discuss the body's reactions to participating in these physical activities and trial variations of movements for personal improvement and challenge.

## Reminders

**Music** - Wednesdays

**Italian** - Tuesdays

**Library Borrowing**- 1/2 **Gold** Wednesdays 1/2 **Blue** Thursdays

**Sport** Monday- Swimming, Wednesdays- Fundamental movements and coordination skills.

**Assembly** - Fridays 2:30pm

**Homework:** Spelling, Reading and Mathematics

Students are required and encouraged to read a book every night for a minimum of **10 minutes** as well as enjoying a novel being to read to them by their parents. Students will be provided with a personalised spelling list and will undertake mathematical investigations.

## Science

### Tip Toe Through Our World

Year 1 and 2 students will explore our human responsibility to look after our environment so that it can be preserved for generations to come. Students will observe the changes that occur in our world and the creative ways in which people use the earth's resources for a more sustainable future. This topic as a focus of inquiry will be explored in Design and Technologies, English and Religious Education.
